EDUCATION

Bachelor of Computer Science and Engineering

Sejong University
Seoul, South Korea
07/2022 - Attending

Faridganj Bangabandu GOVT college

Faridganj, Chandpur, Bangladesh
07/2020 - 02/2022

PERSONAL PROJECTS

- Portfolio web site with dynamic featers.

- A self driving car model using python.

-An weather app to check temperature, wind speed and humidity.

COURSES & TRAINING

- **Data structure & Algorithms**
  Udacity.
- **Full-stack web development with Python and Django**
  Udemy.
- **Git and GitHub**
  Udemy.
- **HTML & CSS (Advanced)**
  Udemy.

TECHNICAL SKILLS

MySQL | Terminal | JavaScript | React Js | Github | GitLab | C++

Python | HTML | CSS

WORK EXPERIENCE

-Personal Project: Dynamic and responsive protfolio wibsite with HTML,CSS and Javascript.

LANGUAGES

English : Expert   **Bengali**: Native   **Korean**: Beginner   **Hindi**: Speakable

I am writing to express my interest in the Frontend Developer position. With a strong academic background in computer engineering and a passion for web development, I am confident that my skills and dedication make me a perfect fit for your team.

I am currently a student at Sejong University, where I am pursuing a degree in computer engineering. Throughout my studies, I have gained a solid foundation in web programming, with a particular focus on frontend development. I have completed various projects that have allowed me to apply my knowledge and develop practical skills in HTML, CSS, JavaScript, and other web technologies. These experiences have equipped me with the ability to handle real-life projects with ease and efficiency.

In addition to my frontend development expertise, I am actively expanding my skill set by learning Java and Spring Boot. I believe that a well-rounded understanding of both frontend and backend technologies is crucial for delivering high-quality and scalable web applications. By continuously honing my skills in these areas, I am prepared to contribute to your team's success in developing robust and innovative solutions.

Furthermore, I have taken courses in C programming, Data Structures and Algorithms, and Basic Design and Project Management. In my project management class, I gained valuable insights into effectively managing software products and projects. Although I lack professional work experience, my academic projects have provided me with the opportunity to apply project management principles and collaborate effectively with teammates.

What sets me apart is my unwavering passion for web development and my drive to continuously improve my skills. I am highly motivated, detail-oriented, and eager to learn. I thrive in collaborative environments, where I can contribute my ideas, absorb knowledge from experienced professionals, and work together to achieve outstanding results.

I am impressed by the company commitment to innovation and its reputation for delivering cutting-edge web solutions. I firmly believe that my technical skills, combined with my enthusiasm for the field, would make me a valuable asset to your team. I am excited about the opportunity to contribute to your projects and grow both personally and professionally at [Company Name].

Thank you for considering my application. I have attached my resume for your review, and I would welcome the opportunity to discuss how my skills and qualifications align with your needs. I am available for an interview at your earliest convenience.

I look forward to the possibility of joining your team and contributing to the success of this company. Thank you for your time and consideration.

Sincerely,

UDDIN SIYAM
